Objective

Seeking an entry-level Software Engineer position starting after Fall 2024 semester. Available full-time while completing two evening classes, graduating Spring 2025.

Education

The Ohio State University | August 2022 - May 2025   Columbus, Ohio
Bachelor of Science, Computer Science and Engineering   GPA: 3.38

Northwest State Community College | August 2020 - May 2023   Archbold, Ohio
Associate of Technology, Computer Applications & Systems Creative Arts   GPA: 3.51

Work Experience

Neudesic, an IBM Company   Columbus, Ohio
Software Developer Intern   May 2023 - August 2024
- Developed **Full-Stack** applications using **React**, **.NET** and **SQL** to help simplify internal processes.
- Worked in the cloud by deploying applications into **Azure** and creating infrastructure.
- Created container solutions using **Docker** to simplify development processes.
- Designed and implemented software solutions using architecture, component, and relational diagrams.
- Gained deep **problem solving** skills by analyzing problems to address software issues.
- Honed my understanding of **software principles** and **security** measures.
- Cultivated a strong ability to collaborate within an **AGILE** team setting.

Menards   Columbus, Ohio
Outside Yard Team Member   August 2018 - August 2023
- Provided excellent customer service, assisting customers with locating and transporting products.

Projects

Budget Tracker   **React, .NET, SQL, Auth0, Azure**
- Full-Stack application that gives users ability to create accounts that keep track of their budgets and goals by allowing them to create monthly budgets using spending categories, expenses and income.
- I learned more about Reacts hooks and state management as well as hosting applications in the cloud.
- Link: www.breeze.seannkelleyy.com | Github: www.github.com/seannkelleyy/Breeze

Portfolio Website   **React, Azure**
- Personal Portfolio Project to showcase my skills and projects.
- I gained more experience with React, while utilizing ShadCN and TailwindCSS.
- Link: www.seannkelleyy.com | Github: www.github.com/seannkelleyy/Portfolio-Project

Pomodoro Timer   **React, Azure**
- Pomodoro Timer application that allows users to create a pomodoro-style timer or focus timer to help them be more productive by tracking time spent working on a task.
- Enhanced state and rendering skills by creating an accurate timer that functions for inactive tabs.
